WITH A NEXTGEN
RENEWABLE SOLUTIONS
SOLAR CARPORT SOLUTION.

NEXTGEN RENEWABLE SOLUTIONS

IS A SPECIALIST IN THE DESIGN AND INSTALLATION OF STRUCTURAL CANOPIES TO SUPPORT SOLAR POWER SYSTEMS. WITH PROMPT INTEGRATION, UNSURPASSED DURABILITY, FEWER MAINTENANCE ISSUES AND AFFORDABLE CUSTOMIZATION, YOU CAN FEEL SAFE WITH NEXTGEN RENEWABLE SOLUTIONS. .

BENEFITS OF SOLAR CAR PORTS WITH NETXGEN RENEWABLE SOLUTIONS

Our solutions are manufactured in America with US Steel.

With our partners and manufacturing facilities in both California & Virginia, we reduce your shipping time and cost to the project site.

Experienced and Certified installers across the United States

Our unique solutions will maximize your available space; to provide the highest amount of solar power per square feet available.

We will lower your overall cost per installed watt.

You decide the finishes - from water tight canopies; gutters and downspouts; LED canopy under lighting; to galvanized or painted finishes.

Typical Carport 3 High Downslope

Typical Carport 6 Y with Deck and Gutter

Typical Carport 5 High Upslope
